

Message from our UPAABC scholar who already graduated:

# Joshua Philippe Antenor

It is a pleasure to finally meet one of the members of the UPAABC. But before I provide the requested information below, I just want to say, thank you. I've tried to get your contact information before when I was still an undergraduate with no success due to confidentiality reasons. Which is why I'm genuinely glad I am now able to talk to you. Though this thank you letter may be almost a year late, I hope you'd still accept my most sincere gratitude to your organization for unselfishly supporting my educational endeavors during college. This scholarship had been a key driver for me to focus more on my studies and had been a source of joy that I am able to ease the financial burden of my family. Since then, I've been sharing with my friends that money should never be a hindrance in pursuing their studies because there are people like you who are more than willing to help students like us, if we will just take the initiative to find a scholarship. With that, thank you for accepting my application four years ago.

As per your request,

Degree finished: **Business Administration last year as Cum Laude of our batch. I don't have my records (for the cumulative average) right now as I'm in the office, but my average for my last year in college based on my CRS record is 1.27.**

Address: **34 Fisheries st. Vasra, Quezon City.**

High School: **Quezon City Science High School in 2012**

Hobbies: **writing, reading books, playing instruments, baking, photography, and calligraphy. I am also one of the youth leaders in our church.**

Extra curricular involvement: **I was affiliated with UP Association of Business Administration Majors, UP Circle of Entrepreneurs, UP Career Assistance Program and UP Business Administration Council.**

Current job: **I am now working as a Sales and Marketing Executive in Azeus Systems Ltd., a software company. It's funny how I got assigned to handle Canada as my market to do campaigns. If only I believe in serendipity, I might say that being a British Columbia Scholar is a premonition that my work will be related to Canada as well.**

Email address: **[jbantenor@up.edu.ph](mailto:jbantenor@up.edu.ph)**

May God continually bless the works of UPAABC. Looking forward to hearing from you!

Best regards,  
Josh
